We advise all bidders to read the Terms and Conditions of the Sale before bidding with Dan Morphy Auctions LLC (DMA). Those who bid are bound by those Terms and Conditions of the Sale, as amended by any oral announcement or posted notices, which together form the contract of the sale between the successful bidder (purchaser), DMA and the seller (consignor) of the lot.

## TERMS OF SALE

When bidding on any lot offered by DMA, the bidder indicates acceptance of the following Terms of Sale. Any participation in the auction binds you to agreement of these terms whether or not you read or understand said terms.

## CONDITION OF ITEMS

DMA makes every effort to accurately describe all items offered in its sales, however all items for sale are "as is," and it is the bidder's responsibility (present or absentee bidders) to determine the exact condition of each item. DMA will not be held responsible for typographical errors. Neither we nor the consignor make any guarantees, warranties, or representation expressed, or implied, in regard to the property or the correctness of the catalog or other description of the authenticity of authorship, physical condition, size, quality, rarity, importance, provenance, exhibition, literature or historic relevance of the property or otherwise. No statement anywhere whether oral or written, shall be deemed such a guarantee, warranty or representation. Prospective bidders should inspect the property before bidding to determine its condition, size and whether or not it has been restored. The consigner and we make no representation or warranty as to whether the purchaser acquires any reproduction rights in the property. Returns will not be accepted under any circumstances. All items will be available for preview one (1) months prior to the auction.

All items are sold for display purpose. If electrical, mechanical, or other working parts are inoperable even if working at the time of sale we are not liable due to the inherent nature of the age of these antiques and items.

**FIREARMS** – All firearms transfers will be in strict accordance with all Federal, State and local laws. If you are unable to purchase or own a firearm, please do not bid on these items.

- The same person to whom the bidder number is registered must be the person to pick up the firearm(s) at the conclusion of the sale – Federal Law disallows anyone else from accepting the transfer.
- Excepting pre 1898 antique or muzzle loading firearms, all firearms sales to non-licensed bidders will require the completion of a form 4473 background check. Bidder will be blocked from participating in future firearm auctions.

## BIDDING

### RIGHTS & RESPONSIBILITIES

The auctioneer will determine the highest bidder. The auctioneer alone has the right to reopen the bidding of an item if deemed necessary due to a dispute. If there is a tie bid between the floor and Internet or absentee bid, the floor bid takes precedence. DMA and its representatives reserve the right to remove those attendees who impede preview and/or the auction. Title to all merchandise shall pass to the highest bidder at the fall of the auctioneer's hammer. The buyer will then assume all risk and full responsibility of the lot purchased once ownership has changed.

## BID INCREMENTS

Bid increments listed are a general guideline. Actual increments are at the auctioneer's discretion. If a lot does not receive a bid of 25% of the low estimate, the lot will be passed by the auctioneer.

\$0 - \$500.....	\$25
\$500 - \$1,000.....	\$50
\$1,000 - \$2,000.....	\$100
\$2,000 - \$5,000.....	\$250
\$5,000 - \$10,000.....	\$500
\$10,000 +....	Auctioneer's discretion

**• ABSENTEE BIDDING** - DMA will accept absentee bids if pre-authorized by mail, fax or through [www.morphyauctions.com](http://www.morphyauctions.com) online. Absentee bidders must use the absentee bid form and clearly mark the lot number, title and maximum bid amount. Absentee bidding forms may be accessed online at [www.morphyauctions.com](http://www.morphyauctions.com). If there are two (2) identical bids placed on the same item, priority will be given to the first bid received. All bids must be left in increments as explained on our bid form. If a bid is "out of increment," the auctioneer has the right to round the bid up to the next correct increment. Bidders may preview, register and place bids online through our website, [www.morphyauctions.com](http://www.morphyauctions.com). Online absentee bidding through DMA is available until 15 minutes prior to the beginning of the sale. Absentee bids placed through [www.morphyauctions.com](http://www.morphyauctions.com) will be auto charged to the credit card entered 48 hours after the end of the sale. If you wish to pay by another method please contact us within 48 hours after the sale. Seller(s) agree to allow the Auctioneer to accept and execute absentee bids in a competitive manner for potential buyers and under the Morphy Auctions absentee bidding terms and conditions. During the live sale, the auctioneer will execute your absentee bid competitively up to the maximum amount you have indicated.

**• ONLINE BIDDING** - Online bidding through iCollector, Bidopia, and Live Auctioneers; all Terms and Conditions still apply. If there is a tie bid between the internet bidding venues and the floor, the floor bid takes precedence. If a credit card has been provided to one of the online bidding platforms, DMA reserves the right to use and charge the credit card if the winning bidder has not paid via another method by the 10 day term in Payment Terms below.

**• TELEPHONE BIDDING** - Requests for phone lines must be received at least three (3) days prior to the auction date. DMA cannot guarantee phone lines but will make every attempt to accommodate those who wish to participate through that method. Phone lines are provided on a first come first served basis. Please visit [www.morphyauctions.com](http://www.morphyauctions.com) or call 717-335-3435 to request a call from our representatives during the live auction.

## RESERVES

The majority of our items are unreserved, but occasionally items may carry a moderate reserve. Please note that when a lot carries a reserve, the reserve is usually somewhere below our low estimate. In the case of a reserved item, the seller has authorized the auctioneer to bid on their behalf until the reserve price is reached.

## BUYER'S PREMIUM

A 20% buyer's premium will be added to all successful bids and is payable by the purchaser as part of the total purchase cost. A 2% discount is applied to payments made with: cash, check or money order. Split payments are subject to a 20% buyer's premium if a credit card is used as any form of total payment.

## SALES TAX

All buyers will pay applicable state sales tax. Sales Tax will be charged unless the item is being shipped out of state or the buyer provides a current state exemption form.

## PAYMENT

All merchandise must be paid in full within ten (10) days of the date of the sale. Purchases totaling \$100,000 or more must be paid within three (3) days of the date of the sale. **44 - NAVY ARMS CREEDMORE MATCH TARGET RIFLE.**

SN: 67400. Reproductions of the Rigby long range match black powder rifle, marketed under the 'Creedmoor' name have been available from Spanish and Italian makers since the late 1990's. John Rigby was a well known Irish rifle maker. Rigby rifles were famously used by the Irish team at Creedmoor in the International Rifle Competition against America in 1874. This Navy Arms rifle was made by Intermarco which became Ardesa and finally Aramas Aral, Elgoibar Spain. Its outward appearance is as that of a full match rifle, with pistol grip half stock, and aperture sights. The rifle is however scaled down in size slightly from the originals and consequently is a bit lighter than the originals. Good mid-range shooting (out to 600 yards) can be achieved with this rifle, however the larger charges and heavy bullets generally employed at longer ranges can result in recoil being uncomfortable. Individual matches are normally shot at 300, 500, 600, 900 and 1,000 yards. Course of fire is: 300, 500 and 600yds - 3 sighters and 10 match shots 900 and 1000yds - 5 sighters and 15 match shots. **158 - CASED PAIR OF METROPOLITAN ARMS NAVY REVOLVERS.**

**LOT - 158**

Offered is a scarce set of Metropolitan Arms Company Navy percussion single action revolvers (Copy of 1851 Colt). Guns are consecutive serial numbers 1190 and 1191. Both revolvers have all matching serial numbers on all parts. They are considered first model Navy's. Standard features include 7 1/2" octagon barrel, 36 caliber percussion, 6 shot round cylinder, and no markings. The first 1799 guns bear no markings other than the serial numbers. About 6,063 of these revolvers were manufactured between 1864 and 1866 by Orison Blunt. They are exact copies of the Colt 1851 Navy revolver. Both guns are in very good to excellent condition. All metal surfaces are smooth. Have brass grip straps. Both guns index, albeit, one is a little off time. Grips retain traces of original varnish. The bores on both guns are strong. This consecutive numbered set of revolvers comes in a vintage display case that includes two tins, a bullet mold, some wad scissors, a key, an empty box of skins, some projectiles, and a brass eagle original flask. Top of the case has an inscribed plaque that reads "A. Oliver from Major N.L. Finney. A.A.G.A.1862." Further research into the civil war connection of either Oliver or Finney may add some interesting history to this set of extremely rare revolvers. With such a limited civil war production and being considered secondary martial revolvers, as well as the scarce consecutive numbers, it makes this an extremely desirable item for the Civil War martial collector. 3,000.00 - 6,000.00

Hammer retains virtually all of the original case colors. Grips are near mint, are original not, fit perfectly, and are not numbered inside. Most of the original screws retain virtually all of the fire blue finish. All screwheads are perfect, having never been touched or taken apart. Action is perfect with all four definitive clicks. **1111 - CONFEDERATE CONTRABAND COLT 1861 NAVY REVOLVER.**

SN: 1070. This is one of two documented Colt Percussion revolvers from what is surmised as four orders of approximately 50 guns per order that were sent from Colt to C.B. Cotton in September of 1861. Cotton was the Collector of the Port of Louisville, Kentucky. Charles Cotton was then selling these guns that he purchased for \$15 for upwards of \$100 each to the Confederacy. This gun was shipped on September 2, 1861. On October 31st, General Sherman ordered a seizure of arms and goods in Cotton's possession. Colts from these shipments are fairly well known in collector circles as the Contraband Colts. This particular Navy was sent to a very famous and influential Louisville resident, one George D. Prentice who was a well known author and the editor of the Louisville Daily Journal from 1830-1868 and a loyal Unionist. This revolver was shipped to him in care of Charles Cotton. It is ironic in that both of Prentice's sons fought for the Confederacy. One died on the field and the other ended up in a Union Prison Camp. In the 3" file of history and paper work that comes with this gun is a copy of a letter written to President Lincoln by Prentice pleading for the release of his son. The gun itself is a basic standard Colt Model 1861 Navy six shot .36 caliber percussion revolver that left the factory with a 7-1/2" barrel, blue finish with case colors and brass back strap with walnut grips. Serial numbered 1070. Shipped September 2, 1861. All matching numbers but wedge not numbered. All metal surfaces are clean smooth brown patina. Excellent original grips with "FP Nov. 3, 1912" carved into panel which is most likely a family member of Prentice. Cylinder has a fairly complete scene and indexes fine. Bore is strong. It is not often that a Colt has a story that actually mirrors the period of history in which it was manufactured and one that relates to a family and a specific event as the Civil War unfolded. This gun is the centerpiece of that time and place and a family torn apart by the War. The file of paperwork that comes with this historic revolver is a novel in itself. Includes Colt factory letter. 20,000.00 - 25,000.00

15" L. This is a very famous Bowie knife amongst collectors. High quality extremely large spear type Bowie with 10" blade and 15" overall. Blade has nice patina and tip. Stamped on knife is "Rio Grande Camp Knife" with maker, Wm Jackson & co. Sheaf Island Works, Sheffield on base. Comes with an old vintage sheath that fits perfectly. This is probably the most famous pre Civil War large bowie known to American collectors. These knives were also very popular with the Texas Rangers on the border but the most famous personality related to this knife is John Wilkes Booth. He had one of these Bowie knives in his hand the night he assassinated Lincoln and used to stabbed Major Rathbone with the same knife. After shooting Lincoln, he jumped to the stage breaking his ankle in the process, turned to the crowd brandishing this exact type and make of Bowie knife and shouted "'Sic semper tyrannis" (Latin for "Thus always to tyrants," attributed to Brutus at Caesar's assassination and the Virginia state motto) A picture and history of this Bowie can be found on page 316 in the book entitle "The Antique Bowie Knife Book" by Adams, Voyles and Moss. The one pictured has a stag handle while this example has a wood handle. Don't know if this is an old replacement or special order but looks original and blade is untouched. Arguably, the most famous Bowie Knife in American history and every Bowie Knife collection should have at least one example. This lot comes with an original CDV of Booth. 1,500.00 - 2,500.00

The german silver horsehead pommel is beautiful with no flaws. The stag grip has a small age crack but does not detract. Complete with a very nice all original sheath. This is a Clip point bowie knife marked "Edmundo Whitey", "CA", German silver mounts. Probably Sheffield made in Joseph Rodgers style. These massive circa 1850-60's Bowie knives with the silver Horse Head Pommels are among the most sought after of the big Bowies from the pre-Civil War era and this is a classic knife in the classic style. 4,000.00 - 4,500.00
